Spring 2018

# Retrospective

2/21/2018

1. Appreciations
  - Ruben's note taking structure
  - Tristan creating the Github
  - Ruben creating the Trello
  - Blake creating Google Doc space
2. Successes
  - Everyone was on time with their work when contributing to D.1
  - Full attendance for meetings so far
  - No team conflicts
3. What did not go so well?
  - D.1 was not uploaded to Github on time
  - Did not have proper structure for first deliverable
  - Meetup space is sometimes taken or crowded
4. Barriers
  - Very little slack communication
5. What we should try next time
  - Read the instructions and make sure anything we turn in is proper structure if the assignment requires it
  - Consider finding a stable meeting area if it becomes a problem
