Proposed meeting time: Fridays @ 12PM

Current Facilitator: Blake Lawton

Current Note taker: Tristan Miller

github link: <https://github.com/deltarod/CS386-Group-20>

1. How will team members deal with another team member who appears to exercise too much control over the team?

Honesty is the best policy

2. How will team members deal with another team member who does not appear to be shouldering their responsibilities within the project, or who is not contributing during team meetings?

Honesty is the best policy, be verbal about what is going on. We are here to get a project done, not to hurt anyones feelings.
